its research and its innovative teaching, as is reflected by its position in the world's most prestigious University rankings.

APPEARANCE IN RANKINGS (WORLDWIDE POSITION)

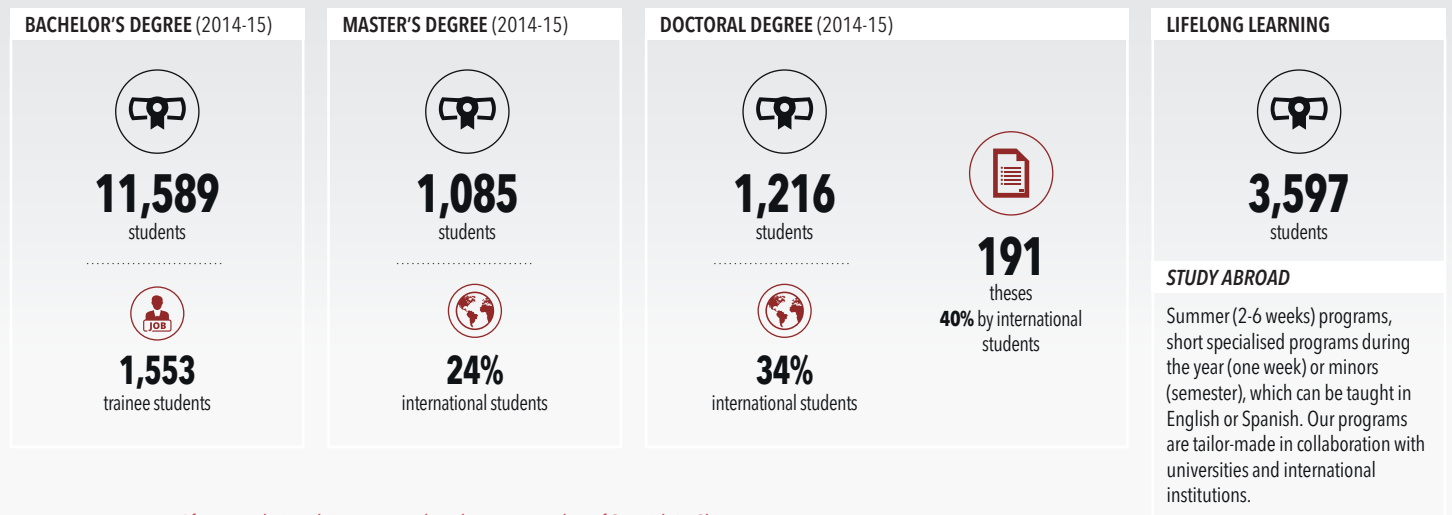

EDUCATION FOR A WORLD IN MOTION

The education the URV provides is based on a solid foundation borne out of a quest for excellent teaching and research staff, innovative teaching, the application of new technologies and interdisciplinary, inter-university and international cooperation.

The range of URV programs spans all five knowledge areas (Arts and Humanities, Sciences, the Social and Legal Sciences, the

Health Sciences, and Engineering and Architecture) and all levels of specialization (40 undergraduate degrees, 7 double degrees, 48 Master's degrees, 23 Doctoral Programs, 33 URV postgraduate programs, and over 150 continuous education programs). As a complement to our range of university programs, we also promote a wide range of sociocultural, sports and associative activities.

EDUCATION - STUDENTS

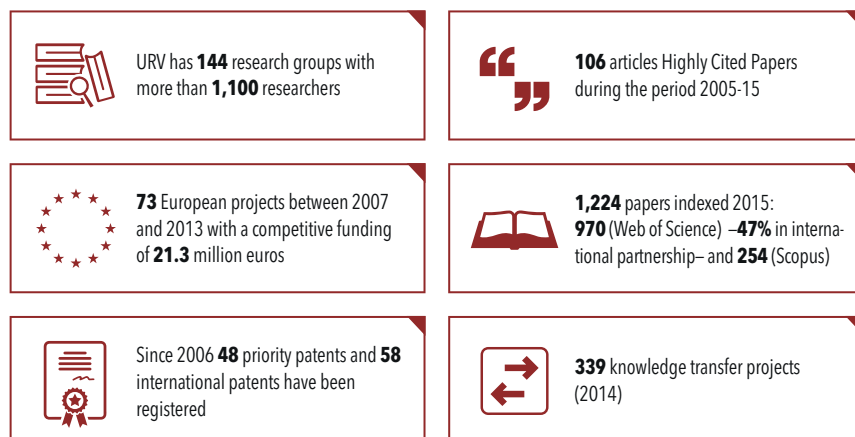

After completing this master and working as a teacher of Spanish in China, I decided to return to the URV to do a doctorate. Apart from the academic atmosphere, what brought me back to the URV were my teachers, who I found to be immensely inspiring.

RESEARCH FOR PROGRESS

Since we have started the collaboration program between URV and Cairo in Chemical and Electrical Engineering, I found it highly beneficial for our students to get exposed to new educational, cultural and social experiences at a highly professional but still friendly environment at URV. Above all, Tarragona is a wonderful place to visit.

URV INTERNATIONAL

We live in an increasingly interconnected world. At the University this process has led to the increasing international mobility of the students, professors and researchers who form part of our community, which is open to all cultures and treats them with respect and solidarity.

The University has made a place for itself in the world due to its close relations with society, as is shown by our ranking in 2016 for the third year running as one of the 150 best young universities in the world (Times Higher Education ranking).

INTERNATIONAL DIMENSION

557 joint publications with international institutions.

28% of university master's degree students and PhD candidates are international

856 students have participated in mobility programs.

Summer Study Abroad courses made ad hoc for students from Egypt, the United States, Japan, Turkey and China.

More than 40 international cooperation projects financed in recent years.

MOBILITY

The URV welcomes students from other universities participating via exchange agreements (Erasmus+, MOU, ISEP and I-Global) at the undergraduate, Master's and Doctorate levels or work-experience programs at our facilities and services.

Our mobility programs are:

ERASMUS+

Allows to study for a period between 3 to 12 months in a higher education institution of a European country receiving academic recognition.

MOU

Allows to study for a period of time in a higher education institution with which the URV has an agreement outside the EHEA.

ISEP

Addressed to UG students from URV and US who wish to carry out an academic exchange with 150 universities within the ISEP network.

I-GLOBAL

Fee-paying mobilities outside the framework of exchange programs and institutional agreements.

33%

of graduate students are international

92%

of international students recommend the URV

TARRAGONA: CULTURE, NATURE AND LEISURE

The URV is situated in the province of Tarragona in Southern Catalonia. Here, in this privileged position on the Mediterranean coast, nature, culture, leisure and tradition combine to afford residents a high standard of quality of life.

As well as sandy beaches with crystal-clear blue waters, mountains, and areas of extraordinary natural beauty, such as the Montsant, Els Ports and Ebro Delta natural parks, this region boasts cities of extraordinary historical and cultural heritage, such as Tarragona with its Roman ruins (declared a World Heritage Site by UNESCO), the medieval towns of Montblanc and Tortosa, and the modernist city of Reus, where architect Antoni Gaudí was born and raised.

Also, thanks to its strategic position, the region possesses a dynamic and diverse economy and an important communications network (a port, an airport, freeways and high-speed trains), which have made the region one of the most important tourist destinations in Europe.
